

Genealogy – the Art of the Past, Today and Poetry, which then can be like Jacotot – the Essential Method, that Signature called a Bank note as well – Messianic Life, and Highest Poverty then – what is a Monastic Life, Theosophy then, as Philosophy (1977 – 2025)

By Giorgio Agamben

I. Foucault, and Walter Benjamin – with Heidegger – against Hegelianism at all

So in fact the past is connected to the present by a line which then is a *lignes de fluit* which is also economic dynamism today which is yesterday a historical culture – history then as *lignes de fluit*. I also mean this is corrupted by my publishing rights, I need this again – years later, a young man meets me with this research. I thank him.

II. Archaeology

Then an archeology is just that – signatures to banks. Quran, as Sufi-Ilism which is then modern Quran as Averroes. I mean then theosophy – a culture of antagonism then to work. I labour on the material at home.

III. Theosophic, Constellations and Method which is presented

I present a genealogy of wealth and poverty – my life, my life (today)

I was a worker in Egypt, I bought a toffee today. Criss-cross this complexly one finds banks, and *oikonomia* as economics – just the *oikos*, just the money and coinage, all this is generalized everywhere, but a Prophet is working on the side of us, just us. I love this stuff.
